QUICK START GUIDE

Ricoh Product Line Segment 2 thru 6

907EX, MP301, MP3352, MP5002, MP7001, MP8001, MP9001, MPC400, MPC5502 and MPC6501
Copying Documents

Remove paperclips, staples or other loose objects before placing originals in feeder. Be sure to straighten bent or curled edges.

If using the Glass Platen, Lift the lid and place documents face down on the glass at the position of arrow regardless of size.

Select any additional copy settings.

Press original document type, i.e. Text, Text/Photo, Photo, etc.
Press [sort] to collate document (if not highlighted)
Enter any finishing options
Enter desired number of copies
Press [Sample Copy] copier will print one completed set and prompt you [Suspend] to cancel job or change settings
[Continue] if job is correct to complete remaining copy sets

Or press START to skip [Sample Copy]

Note: When copying from the glass and requesting multiple copies, press the # key after feeding your last original to release the additional copies.
Using Batch Mode

Use [Batch] when the number of pages being fed in the document feeder exceeds the feeder capacity, or you need to feed documents from the feeder and off the platen glass or you need to feed pages from different sources but want to keep the page order and output multiple complete copies.

1. Press [Special Original].

2. Select [Batch], and then press [OK].
3. Enter your job settings including the desired number of copies.
4. Place the first part of the originals in the feeder (or on the glass) press (Start) key.
5. After those originals have been scanned, placed the next batch, pressing start each time a new page or pages is added and continue until all the pages for your job is complete.
6. Press the [#] key to release the complete job.

Note: If copies are not stapled, the machine will deliver the first copies as they are scanned and will release the additional copies after the # key have been selected. You cannot switch between 1 sided and 2 sided documents when using this mode.
**Sort/Stack & Rotate Sort Output**

**SORT Rotate/Sort** – the machine assembles copies as sets in sequential order. Use [Sort] when placing multiple page document to maintain page order - Same as [Collate]. When a finisher is installed with the device the machine will output the document in the Sort/Shift Sort order, separating the first set from the next set.

**STACK** – groups together copies of each page in a multi-page original. Use Stack when setting multiple pages in the document feeder and requiring the same copy number count per page to be stacked.

**ROTATE SORT** – Use Rotate Sort when your machine does not have a finisher to keep jobs separated. To use this option you must have one paper tray loaded with 8.5x11 paper in landscape orientation and the other tray loaded with 11x8.5 portrait and select this option from the finishing mode or from the short cut menu on copier screen.
Stapling Documents

1. Place Documents in the document Feeder
2. On bottom of touch screen - select the staple position that match you job output.
   - Select Top Left (straight)
   - Top Left Slant
   - Bottom Left (for landscape documents fed through feeder in portrait orientation)
   - Double Staple Left (portrait Orientation)
   - Double Staple Top (landscape orientation)
   - Booklet stapling (for booklet folded at center stapling)
3. Press OK
4. Press Start

Note: The number of pages and stapling positions will vary by machine depending on the model and type of finisher installed.
2 & 3 Hole Punch

Printing Options

You can send documents to the copier to be held for later pick-up, confidential printing, for sample printing or to the document server for reprinting. See next page for options break-out of these features.
Printer Properties

Job Type

Locked Print: Temporarily holds print jobs in the memory until a valid password is entered at the control panel. Files are automatically deleted from the system HDD after printing.

Hold Print: Temporarily holds multiple print files in the memory until selected. Does not require the user to enter a password.

Sample Print: Outputs the first set of a multiple-set print job so that output settings can be checked for accuracy prior to printing the entire job.

Stored Print/Store and Print: Identical in functionality to Hold Print, except files are not immediately deleted after printing. Store and Print enables users to print files immediately while simultaneously storing data. 4-8 digit password is optional.

Document Server: Sends files directly to the document server for storage and printing at a later date.
Accessing Confidential Documents

Press Printer to access the list of stored files from your computer as listed on right:-
Printer Display Panel
